

FULL STACK WEB DEVELOPER

Hi, I'm Paul Opaco

I enjoy building things that live on the internet, from websites to web apps. I am currently better at the first one, but I'm always learning.

View work

About me

Selected Works

E-commerce API Documentation

Dynamic E-Commerce Workflow Management. The system features dynamic routes for order processing, real-time inventory updates, and secure user authentication.

Postman

Backend

Course Booking API Documentation

RESTful API for managing course enrollments, featuring user registration, authentication, and retrieval of user details.

Node.js

REST

Course booking App

A MERN-stack course enrollment system featuring user registration, authentication, and profile management.

MERN Stack

Auth

E-commerce App

MERN E-Commerce Platform. The platform features dynamic product catalog with filtering and sorting, and real-time search.

React

E-commerce

Airline Booking Mockup

Conceptual design showcasing an intuitive UI for flight search, seat selection, and booking confirmation.

UI/UX

Design

Airline Booking Prototype

Interactive prototype simulating end-to-end airline booking functionalities, including reservation and payment.

Prototype
